HORSE IDENTIFICATION

RACING AUSTRALIA

Complete this form if you have an unidentified horse and would like us to search our records to try and establish its identity, or if you require official identification for showing purposes.

The horse must have been parentage validated by the Australian Stud Book and foaled since 1985.

Please note if the horse was born in Australia from 2003 onwards it may have been microchipped. Contact your veterinarian for more information about determining the microchip number.

If the horse's parentage can be determined a Retired Racehorse Identification Card suitable for showing purposes will be issued. An official pedigree will also be provided.

The fee to conduct a search of our records is $75.00. Please note no guarantee can be given that the horse will be successfully identified.

If possible, please include photos of the horse showing its brands and white markings. Any photos supplied will be returned once the search has been completed.

Processing time may take up to two weeks. If we are not able to identify the horse within this time we will contact you and advise if a more extensive search is required.

Please use BLOCK letters and write clearly in black or blue pen.
